

ADVANCE PRODUCTS & SYSTEMS
HAMMER & PILE
CUSHION PADS

ISO 9001 CERTIFIED COMPANY - FM537405

*APS Hammer Cushion Pads
have proven themselves
in all types of pile driving
applications.*

*APS has the ability to cut pads
to your specifications.
Standard thickness for
phenolic pads is 1".
Standard thickness for
aluminum pads is 1/2".*

*Hammer Cushion Pads have
to be strong to withstand the
pounding and to transmit the
driving force needed while
protecting your equipment and
the pile. APS' pads are the best
at accomplishing this task.*

An undamaged cement bridge pile after being driven using APS Hammer Cushion Pads. There was no need to trim the top, a costly and time consuming job. Also, the life of the APS Hammer Cushion Pad is longer so there is less time lost in changing pads.

Pile driving jobs are always on tight schedules with no time figured in for breakdowns or unnecessary pile trimming. Events like these can turn a simple job in to a nightmare. APS Hammer Cushion Pads can help avoid these costly over-runs.

PROTECT YOUR EQUIPMENT WITHOUT SACRIFICING POWER OR YOUR PROFITS

In pile driving, the very nature of the business is pounding, but preferably not on your equipment or your profits. To help protect both, Advance Products & Systems offers Hammer Cushion Pads. These pads extend the life of your hammer while transmitting the maximum striking force to the pile.

Made of high impact phenolic material, the APS cushion pad absorbs the initial hammer shock while transferring the power that you need to the helmet and into the pile.

APS Hammer Cushion Pads reduce the tremendous wear and stress hammers are subjected to, thereby, minimizing breakdowns and non-productive downtimes. Damage to the contact point of the pile is also lessened making it unnecessary to trim the pile which can be a time consuming, costly procedure.

A LEADER IN SERVICE

APS manufactures each cushion pad to your specifications, with accurate sizing guaranteed. Our prices are competitive, and we pride ourselves on quick and accurate turn-around.

FIELD EXPERTS AGREE

The APS Hammer Cushion Pads last longer and are the best pads on the market today.
